## INFORMATION by TELEPHONE

PEOPLE are not leaving so much to chance in these days of universal telephone service. Instead of risking disappointment they telephone and get the facts.

Will school be held on a stormy morning, will your friend be in if you call, what does the weather man predict and when does the train leave—are samples of myriads of questions constantly passing over the wire, and being answered by the proper authorities.

There are also questions to be asked about the telephone service, how somebody can be reached over the Bell Long Distance Telephone and what it will cost, and similar questions, which are being answered by the information operators.
